

Securely Migrate Your Business to the Cloud and Save with EverFiles

Simplify file sharing, reduce IT costs, and ensure data security with our in-country cloud storage solution.

EverFiles Key Features:

- Secure, Private Cloud File Server:** Store, access, and share your business data securely from anywhere.
- In-Country Data Storage:** Meet compliance requirements and keep your data within local borders.
- Robust User Permissions:** Control access to data and ensure security with granular permissions.
- File Versioning and Recovery:** Restore previous versions of files in case of accidental deletion.
- Real-time, Secure Mobile Access:** Store, access and share files from any device, anytime.

SMBs Can Look Forward To:

- Reduced Costs:** Eliminate the maintenance burden of on-prem servers and save on IT resources.
- Improved Accessibility:** Empower your employees to access and share files securely from anywhere.
- Peace of Mind:** Ensure regulatory compliance with in-country data storage.
- Scalability:** Easily scale your storage capacity as your business grows.
- Enhanced Security:** Protect your data with robust enterprise-grade encryption and user access controls.

Why Choose EverFiles from IronTree?

- Built with SMBs in Mind:** Our solution is easy to set up, manage, and migrate to from existing systems.
- Local Expertise:** We understand the IT challenges faced by local businesses regarding data access and privacy regulations.
- Competitive Pricing:** Enjoy affordable cloud storage plans tailored to your business needs.
- Exceptional Support:** We offer dedicated support to guide you through the migration process.
